Previously, the Vice President of national accounts for Medline, Manny's unique understanding of the ever-evolving healthcare landscape, helps him provide the support needed to ensure his goal of helping long-term and post-acute facilities thrive.

“As the healthcare environment fluctuates, Everest Management Solutions provides innovative recommendations on how to optimize your financial performance.”

SERVICES

Our process begins with a thorough field-level assessment. We identify efficiencies and operational gaps within critical assets to develop a custom performance-enhancing solution. If needed, our team of trusted advisors can then partner with your current tenant to assist in goal achievement.

Traditional Assessment

Our team of skilled nursing experts are ready to deliver a comprehensive analysis of the centers to recommend practical solutions to reach peak performance moving forward. The portfolio assessment includes interviews with key members of each center team and virtual participation in pertinent operational meetings to assess leadership competency, center utilization of organizational and industry best practices, as well as technology utilization for operational efficiency.

Monthly Consulting

Everest provides cross-functional monthly interdisciplinary support to clients to help them achieve positive results. Whether layering in directly with regional teams or direct-to-center, Everest crafts training and engagement pathways to help build sustainable processes for operational improvement. Agreements range from 3-12 months. Monthly consulting will be included with every service option provided to assess leadership competency, center utilization of organizational and industry best practices, as well as technology utilization for operational efficiency.

Recruitment/Interdisciplinary Consulting

In addition to assigning a dedicated recruiter for critical position placement, Everest will provide the client with evaluation, assessment, and solutions tied to strengthening each location's market position and recruitment practice standards. The engagement goal is to identify current practices and seek solutions that allow the client's locations to optimize their market position in terms of staffing and labor-related business functions. Everest's monthly support will catalyze a thorough analysis of the client's current market position and provide solutions to optimize the location's competitive strategies in recruiting and retaining staff. The Everest team will assess the client's resources and value proposition associated with recruiting, such as their reputation as an employer, each location's online presence, and the end-user experience of a job seeker and employee. The review will include assessing key market employers and deep dive into the tiers of competitors to identify ideal relationships to target or "sell" against. to assess leadership competency, center utilization of organizational and industry best practices, as well as technology utilization for operational efficiency.

Management Support

The Everest approach is designed for impact and focused on results. All engagements are tailored to the client portfolio's needs to provide high-level optics to optimally manage their assets and to catalyze the behavior change management necessary to yield performance improvements.

“ Everest Management Solutions will cut through traditional industry challenges and provide your firm with an accurate understanding of the operation. ”

SERVICES

Our process begins with a thorough field-level assessment. We identify efficiencies and operational gaps within critical assets to develop a custom performance-enhancing solution. If needed, our team of trusted advisors can then partner with your current tenant to assist in goal achievement.

Organizational Talent Assessment and Support Modeling

Through our team of expert analysts, Everest has assessed that corporate and region teams within the healthcare industry often lack organizational impact. Everest has identified that the current leadership approach can, at times, lack the design to effectuate the behavior change management necessary for positive performance improvement support tied directly to the center. As a result, Everest offers strategic development consulting services targeting org chart redesign and/or impact enhancement solutions. The process is tailored to each client and the unique nuance within the markets they serve.

Clinical Reimbursement Support

Simultaneous assessment and competency enhancement of selected centers designed to elevate skillsets tied to clinical reimbursement accuracy.

Acquisition and Diverstiture Underwriting Support

Every senior care and living organization faces unique challenges related to capital planning. Everest, in partnership with Plante Moran, is a uniquely qualified group of experts called upon to answer tough development and feasibility questions. We provide unrivaled, unbiased advocacy and support to senior living operators, owners, and developers from concept to completion.

Managed Care Contracting and Consulting

Our Managed Care experts are ready to deliver a robust analysis of the portfolio's current state and recommend practical solutions to reach peak performance moving forward. The consulting services that might be secured from Everest Management Solutions in Phase I MCO Fundamentals Package of Everest's payer innovation and services are: MCO Strategic Positioning, Contracting Service, Contract Optimization. Upon completion of the engagement, the Everest team will perform a final review with the client Operators' team. During the review, Everest will guide the client through the relationship established, contracts obtained, and the two tools provided (the MCO guide and contract quick guide). Everest's review will ensure the client's readiness and ownership of the payer relations moving forward.

Your platform to new heights.
